

Operand & Operator

Operators

Name	Operators	Example
Arithmetic	+, -, /, *, //, **, %	a + b
Relational	>, <, >= , <=, !=, ==	a > b
logical	and, or, not	a and b
Assignment	+=, -=, *=, /= etc.	a += b
Membership	in, not in	a in b
identity	is, is not	a is b

Equation / expression

Need of value

$$SI = (P * R * N) / 100$$

Value will be assign
